Tell us about a funny or memorable moment you have experienced while racing. My most memorable moment happened this year, I got involved in a wreck and my car flipped completely over. We went back to racing and I made it to the front and won the race with a bent wheel.

What advice would you offer to someone who is considering building a racecar or to someone who has just started racing? Be patient, you'll never win it in the first lap.

When did you start building your car this year, and how often do you work on your car in the off season? We started our car in October. We work on our car every weekend.

Tracy lives in Lake Preston, SD

He works at Tim Martins Construction in Harrisburg, SD

When Tracy isn't working on his race car he loves to go hunting.
